Note!

Please note that there can be small differences between your product and the images in these instructions.

Note!

Please note that during storage and transport, especially at high ambient temperature, some of the oil and grease used for assembly may leak and stain the packaging. This will not cause damage to the product, wipe off the excessive oil or grease with a cloth.

Note!

Before you install this product, check the kit contents. If anything is missing, please contact an Öhlins dealer.

⚠ Warning!

Before you install this product, read the Öhlins Owner's manual. This product is an important part of the vehicle and the vehicle stability.

Steering damper for

BMW S1000R

Mounting Instructions

SD2609 0

ÖHLINS

MOUNTING INSTRUCTIONS

⚠ Warning!

We strongly recommend to let an Öhlins dealer install this product.

⚠ Warning!

If you work with a lifted vehicle, make sure that it is safely supported to prevent it from tipping over.

Note!

When you work with this product, see the vehicle service manual for vehicle specific procedures and important data.

Note!

Before you install this product clean the vehicle.

1

Remove the plastic cover below original steering damper.

2

Remove the original steering damper.

3

Mount the Öhlins steering damper to Bracket assembly. Mount according to figure.

4

Mount the Öhlins steering damper to the frame.

Use Sleeve 02238-20
Spacer PA 02259-01
Screw M8×60 01046-53
Sleeve 02238-10

5

Fasten the end eye to the triple clamp, from below.

Use Screw M8×30 05404-09
Washer 8.4/24/2 00426-03
Sleeve 02238-19

6

Loosen the screws to Bracket assembly in step 4. Adjust the steering damper by letting it slide in its bracket assembly so that the steering damper uses similar stroke both ways.

Note!

Make sure that the steering has clearance for turning both to the left and to the right end positions, and that the damper is not used as a stop.

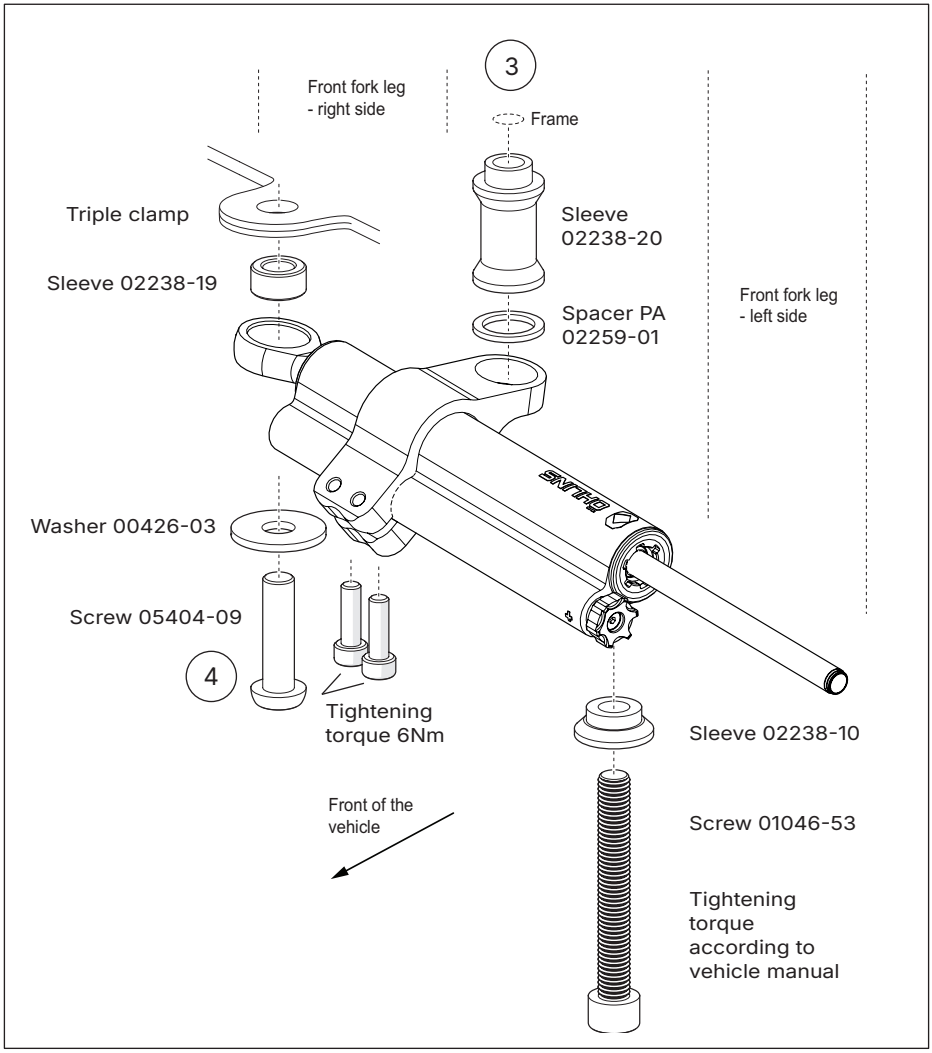

7

Mount the plastic cover back.

Caution!

Make sure that you tighten all screws to the correct torque and that nothing fouls or restricts movement of the shock absorber/front fork/steering damper when the suspension is fully compressed or extended.

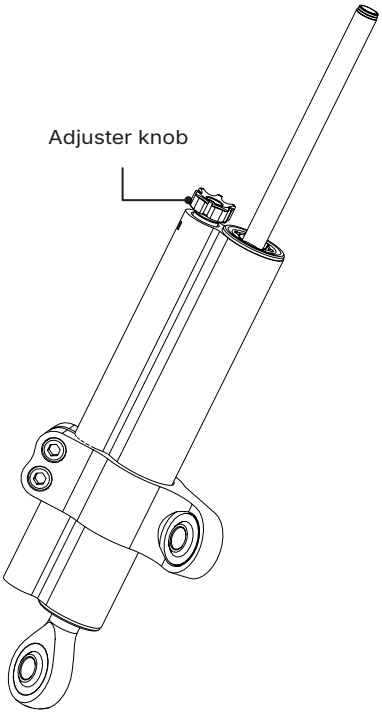

MOUNTING INSTRUCTIONS

ADJUSTMENTS

⚠ Warning!

Before you ride/drive, always make sure that the setup is according to the recommended setup data. Read about adjustments and setting up in the Öhlins Owner's Manual before you make any adjustments. Contact an Öhlins dealer if you have any questions about setting up.
